

Will the cat tree fit?

A room, cat and installation worksheet. Use centimetres throughout.

Complete one sheet per candidate. Unknown is a question to resolve, not a pass.

1 The room

Location / date:

Available width:

Depth:

Ceiling height at the exact spot:

Check door and drawer swings, curtains, radiators, walkways and cleaning access.

2 The cat and the route

Comfortable resting space the cat already uses - clear length / width:

Easy approach and step intervals / route down / other cats sharing:

3 The exact tree

Brand, model, variant and configuration:

Whole assembled width / depth / height (including all overhang):

Clear bed or platform space / doorway opening / step positions:

Source or manual and date / dimensions still missing:

4 Fixing and total cost

Required wall / ceiling restraint and suitable attachment location:

Goods + required parts + delivery + fitting = complete budget:

Before ordering:

- ☐ I have checked the exact manual and any permission needed for fixing.
 - ☐ The whole layout and usable resting spaces fit, with a clear route on and off.
 - ☐ Missing dimensions and fitting questions have been resolved with the supplier / fitter.
-

This sheet organises your checks. It does not certify stability or installation suitability.

Follow the exact manufacturer instructions; get fitting advice where needed.
